## I. UNITED STATES PRACTICE IN INTERNATIONAL LAW

### *DIGEST OF UNITED STATES PRACTICE IN INTERNATIONAL LAW*

Sally J. Cummins, *Editor*

Office of the Legal Adviser, U.S. Department of State

“Reference to the *Digest* has been an invaluable asset in my work for over 35 years. The compilation brings pertinent information to the practitioner that is often next to impossible to locate elsewhere. No international law library is adequate without it.”

Davis R. Robinson

*Former Legal Adviser to the U.S.*

*Department of State*

*Of Counsel, LeBoeuf, Lamb, Greene & McRae*

Because it is the official record of the State Department's Office of the Legal Adviser, the *Digest of United States Practice in International Law* is the single authoritative source on U.S. state practice in the many areas of public and private international law that comprise the volume's contents.

Known to generations of practitioners and scholars as the *Whiteman Digest* and long recognized as one of the most important publications in international law, the *Digest* had ceased publication until the Institute brought the *Digest* back, beginning with the 1989 edition.

Each edition of the *Digest* reports on fundamental topics covered by earlier editions as well as on new topics that reflect developments in emerging areas of jurisprudence in international law.

Since our last Catalog, there has been an important development in the marketing of the *Digest*. Last year, the Institute entered into a co-publishing agreement with Oxford University Press. Beginning with the *Digest* for 2004, Oxford will have the exclusive right to market and sell each new edition.

The price of each of the 2004, 2005 and 2006 editions of the *Digest* is \$145.00

## II. INTERNATIONAL LITIGATION

### ***INTERNATIONAL JUDICIAL ASSISTANCE: CIVIL AND COMMERCIAL***

Bruno A. Ristau

“This set of volumes . . . is a gold mine of fact, process, and insight into the workings of international judicial assistance. It is essential for anyone venturing into those waters.”

*Christopher L. Blakesley*  
*J.Y. Sanders Professor of Law*  
*Louisiana State University*

Since 1985 *International Judicial Assistance: Civil and Commercial* has been the authoritative practice guide and standard reference work for attorneys engaged in transnational litigation. The work has been cited repeatedly by the U.S. Supreme Court and lower courts and in scholarly works.

The author presents a thorough treatment of discovery and service of documents abroad; discusses judicial assistance rendered to American courts or litigants by foreign courts as well as assistance by U.S. courts to foreign litigants; and provides forms for all aspects of international judicial assistance. He also analyzes the major international conventions and the case law bearing upon those conventions in the United States and other signatory countries.

### ***JUDICIAL ENFORCEMENT OF INTERNATIONAL DEBT OBLIGATIONS***

David M. Sassoon and Daniel D. Bradlow, editors

This work surveys the legal issues most likely to arise in a judicial action to enforce an obligation. The first half of the book discusses procedural issues, including forum selection and governing law, service of process outside the forum, enforcement of judgments, and sovereign immunity. The second half focuses on the defenses most likely to be raised by a defendant debtor in a judicial action, such as the act-of-state doctrine, comity, and *force majeure*; defenses arising under the IMF Articles of Agreement; and defenses that arise under the defendant's own law.

## III. UNITED STATES LAW

### ***INTRODUCTION TO LEGAL ENGLISH: AN INTRODUCTION TO LEGAL TERMINOLOGY, REASONING, AND WRITING IN PLAIN ENGLISH, Third Edition***

Mark Wojcik

“What is so outstanding about Professor Wojcik's work — for the term ‘book’ fails to do it justice — is that it incorporates notions of U.S. law, reasoning, and writing by explaining these concepts *in the context of* U.S. language and culture.”

*Professor Toni M. Fine*  
*Benjamin N. Cardozo School of Law*

“Professor Wojcik’s book is a gem! It is a visual, hands-on comprehensive overview of the American legal system and the English language used in that system.”

*Professor Kathryn L. Mercer  
Case Western University  
School of Law*

This acclaimed book breaks new ground in teaching legal English to law students and lawyers whose first language is not English. Employing a hands-on, structured approach, the author leads the reader through carefully crafted exercises that develop the ability to understand and use Anglo-American legal terminology in both written and oral formats.

#### **IV. INTERNATIONAL MOOT COURT COMPETITION**

##### ***ILSA GUIDE TO INTERNATIONAL LAW MOOT COURT COMPETITION***

Cecilie Elisabeth Schjathvet and Mohammed Zakirul Hafez

This is a hands-on book for students participating in international-law moot court competitions. As such, it functions as a road map for students in their research and writing and in their preparation for oral argument. The authors have written a volume that is useful for students, coaches and faculty advisors with a wide variety of moot-court experience. For participants who have no previous experience with international law moot courts, the book serves as a primer, introducing the topics of moot court generally, international law, and oral and legal advocacy. For participants with prior course work in international law, it provides a guide for applying this knowledge to the moot-court context. For participants with competition experience, it provides a first glimpse into how moot court differs when the legal basis is international law. And finally, for those with experience with international law moot courts, this text is intended to serve as a ready guidebook, for “refreshers” on certain topics and for quick reference.

##### ***GUIDE TO INTERNATIONAL MASTER FRANCHISE ARRANGEMENTS***

UNIDROIT

Prepared by a study group of eminent experts in the field, the *Unidroit Guide to International Master Franchise Arrangements* is intended to assist parties in negotiating and drawing up international master franchise agreements by identifying the legal issues involved in those agreements, discussing possible approaches to the issues and, where appropriate, suggesting solutions that parties may wish to consider. By furnishing comprehensive information, the *Guide*

aims to assist in placing the parties on the same level of knowledge, so that neither is at a disadvantage due to lack of experience.

In a clear and easy-to-read presentation, the *Guide* examines the whole life of master franchise arrangements, from the negotiation and drafting of the master franchise agreement and other associated agreements, to the end of the relationship and its effects. The main focus of this practice-oriented guide is the position of the parties directly involved in international master franchising, i.e., the franchisor and the sub-franchisor. In addition, it also deals with the positions of others affected, such as sub-franchisees, where it is considered to be of particular importance.

### ***TRANSNATIONAL BUSINESS LAW***

Rumu Sarkar

This book is a companion to *Development Law and International Finance*. In it, Professor Sarkar brings her insights concerning the emerging law of economic development to the practical realities of cross-border transactions.

One of the great challenges in the modern era is for lawyers in developing countries to understand the methods and objectives of their counterparts in the developed world. It is equally important for counsel from the developed world to understand the realities and the constraints faced by developing countries in the new world economy.

Professor Sarkar's book bridges the gap between lawyers on both sides of the developmental divide. Using actual transaction documents, *Transnational Business Law* links the perspectives of development policy on one hand, and the imperatives of commercial deal making on the other. This book should be of particular interest top practitioners in developing countries, as well as to lawyers representing clients interested in transactions and projects involving the laws of developing countries.

### ***MODEL FOREIGN INVESTMENT LAW WITH ANNOTATIONS***

Don Wallace, Jr. and Robert Shanks, with annotations by David A. Levy

The *Model Foreign Investment Law with Annotations* represents a pattern that lawmakers may use in modernizing existing foreign investment laws or in establishing a market-oriented framework to attract foreign investment. It utilizes a contractual approach to the relations between the foreign investor and the host state, limiting the administrative steps that might hinder the willingness of foreign investors to invest in a system that they perceive as burdensome, while at the same time preserving the right of the host state to regulate foreign investment within its borders.

The annotations include explanatory notes, definitions of terms, and references to additional readings. The bibliography lists articles, books, and international documents. The appendices provide a Sample Foreign Investment Application Form; Arbitration Rules of the United Nations Commission on International Trade Law (UNCITRAL); Convention on the Settlement of Investment Disputes between States and Nationals of Other States.
